

Wupatki National Monument Vegetation Map Class for Snakeweed / Galleta Grassland

The map class "[Snakeweed / Galleta Grassland](#)" is composed of the following vegetation associations, each described separately:

- [Gutierrezia sarothrae / Sporobolus airoides – Pleuraphis jamesii Shrub Herbaceous Vegetation](#)
- [Gutierrezia sarothrae Dwarf-Shrubland Alliance](#)

This map class occurs primarily in the Wupatki Basin in the vicinity of the employee housing area, although a few polygons occur to the north on the Babbitt Ranches.
